PROFESSIONAL SUMMARY

Bachelor of Science in Information Technology graduate specializing in full-stack web development, Android application development, REST API development, database management, and AI-powered applications. Experienced in developing responsive web platforms and mobile applications using React.js, Node.js, Express.js, Django, Kotlin, PostgreSQL, SQLite, and TensorFlow. Completed professional training in cybersecurity, web development, UI/UX, and robotics. Capable of independently developing software projects from concept and interface design through development, testing, debugging, and deployment.

TECHNICAL SKILLS

Frontend Development

- React.js
- Nuxt.js
- HTML5
- CSS3
- JavaScript
- Tailwind CSS

Mobile Development

- Android
- Kotlin
- SQLite
- Firebase

Databases

- PostgreSQL
- MySQL
- SQLite

Backend Development

- Node.js
- Express.js
- Django
- PHP
- REST APIs

AI & Machine Learning

- Python
- TensorFlow
- Computer Vision
- Image Recognition

Development & Design Tools

- Git
- Docker
- Figma
- Postman

PROFESSIONAL EXPERIENCE

Software Development Intern

SciBiz Informatics Inc.

Jan 2026 – Apr 2026

- Developed a **blockchain-based donation web application** using **Quasar Framework** for the frontend and **Django** for backend API development.
- Developed and integrated **RESTful APIs** to support application functionality and data management.
- Implemented **blockchain payment and donation features**, including **Paytaca wallet and QR code integration**.
- Worked with **CashScript smart contracts** and contributed to blockchain-based transaction functionality.
- Contributed to frontend development, backend integration, UI implementation, and application testing.
- Participated in debugging, troubleshooting, code reviews, and technical documentation.
- Used **Git and Docker** for version control, development, and application deployment.
- Collaborated with the development team throughout the software development lifecycle and project sprints.

SELECTED PROJECTS

Freelance Software Developer

Independent / Freelance | 2024 – Present

- **Pathfolio — Career Development Platform | *React.js, Node.js, PostgreSQL* | 2026**
Career development platform featuring user profiles, skill assessment, personalized recommendations, progress tracking, and RESTful APIs.
- **Vision Diet — AI Nutrition Tracking Application | *Android, Python, TensorFlow* | 2026**
AI-powered nutrition application using computer vision for food recognition, calorie estimation, meal tracking, and nutrition reporting.
- **Cacao Bean Detector — AI Agricultural Application | *Android, Python, TensorFlow* | 2026**
Computer vision application that classifies cacao bean quality and provides quality-grade reports for agricultural use.
- **ALS App — Alternative Learning System Application | *Android, Kotlin, SQLite* | 2026**
Offline-first mobile learning application providing ALS modules, activity submissions, educational materials, and learner progress tracking.

- **Kiddo Wise — Children's Learning Application | *Android, Kotlin, Firebase* | 2025**
Interactive educational app featuring learning games, quizzes, stories, rewards, and parent-oriented progress monitoring.
- **Tracer — Student Task Management Application Android | Kotlin SQLite | 2024**
GPS-based tracking application featuring live location tracking, route visualization, trip history, and map integration.
- **Waray Wise — Language Learning Application | *Android, Kotlin, SQLite* | 2024**
Waray language learning application featuring vocabulary lessons, flashcards, pronunciation guides, quizzes, and offline learning.

CAPSTONE | ACADEMIC PROJECT
Touch Learn — Interactive Educational Android Application
Android | Kotlin | SQLite | 2024

- Developed an interactive Android application for learning and identifying computer hardware components.
- Created visual learning modules covering different computer hardware components and their functions.
- Implemented quizzes to assess users' knowledge of computer hardware.
- Added progress tracking to monitor learning performance.
- Implemented offline data storage using SQLite.

CERTIFICATIONS & IT TRAINING

- Microsoft Cybersecurity Course — October 2025
- Cybersecurity: On The Offense
- Web Development & UI/UX Essentials — October 2025
- Basic Robotics
- GradeTech Training / Participation — June 2025

EDUCATION

- Eastern Samar State University – Salcedo
- Bachelor of Science in Information Technology
2021 – 2025

AWARDS & ACHIEVEMENTS

- Best in OJT — ESSU-Salcedo
2026

CORE COMPETENCIES

- Full-Stack Web Development
- Android Application Development
- REST API Development
- Database Design & Integration
- AI & Machine Learning Integration
- UI/UX Implementation

- Application Testing & Debugging
- Git & Version Control
- Software Troubleshooting
- Technical Problem Solving
- Independent Software Development
- Project Planning & Implementation

ONLINE PORTFOLIO
